EDUCATION

NTUU KPI Sep 2020 - Jun 2024
Third course of System Analysis, Institute for Applied System Analysis (IASA) GPA: 9.4/10.0

EXPERIENCE

Data Labeling Specialist at Deloitte Aug 2022 - Nowadays
Label machine learning data from customer. Kyiv, Ukraine
- Experience with using technology and inputting data.
- Complete tasks in a timely manner, meeting SLA deadline.

Performance Analyst, intern at EPAM June 2022 - Aug 2022
Understanding of software development. Kyiv, Ukraine
- Python.
- SQL.
- JAVA (Basics + OOP concepts).

Hackathon int20h (BEST Kyiv, Uklon), IASA DS Championship (Sigma, Genesis, IASA) Jan 2022, Sep 2022
Data science, Machine Learning. Kyiv, Ukraine
- Data analysis with Python (matplotlib, seaborn).
- Have been implemented random forest classifier, regressor algorithms.
- Real Uklon data in hackathon.
- Real Genesis product data in championship.

PROJECTS

Pet Project 1 Nowadays
Teamwork for metallurgical production. Link to repository
- Data analysis with seaborn (heatmaps for correlation fields, distribution of metrics, etc.)
- Feature engineering.
- Linear regression, boosting.
- PCA.

Pet Project 2 March 2022
Self-made tg-bot for war victims. Link to repository
- Asynchronous programming in Python.
- Using Heroku services (deploy).
- Link to Telegram-bot.

University project May 2021 - June 2021
Coursework C++ Link to repository
- Basics of C++.

HARD SKILLS

Programming languages: Python, Java, C++, C, also SQL   **ML/AI:** Sklearn, Numpy, Pandas, Matplotlib, Seaborn

Math: Probability theory, Mathematical statistics, Linear algebra, Mathematical analysis, Discrete math.

Miscellaneous (basic): Git, Understanding of Agile, SCRUM, Waterfall.

SOFT SKILLS

Languages: English (upper-intermediate), Ukrainian (fluent), Russian (fluent), German (A2).

Hobby: Hiking in the mountains.
Perfect communication skills, I have successfully captained school teams in physics tournaments on several occasions. I was the captain of the student team during the participation in the int20h hackathon and IASA DS championship. And now I am actively looking for the position of Data Scientist / ML Engineer, as I am very passionate about this direction!
